

Geometry June 2013 Regents Answer Key by George H. Doran Company

### **Geometry June 2013 Regents Answer**

Best Answer: Both aa and sas are correct. they did not give 2 angles but you could figure it out. The angles opposite the sides are in the same proportion as the sides, and the angles in each triangle must add up to the same thing because the third angle was congruent. This shows that all the angles are ...

Hi everyone ! So how do you think you did on the geometry regents? For some reason I thought this geometry regents was a lot harder than the practice regents i did :/ What was the answer about the question Of a triangle and it asked you which sides were equal? I picked Isosceles triangle, sorry if i cant explain the question well. I probably got only a 70 :/
